[II Manager Not Working](#)

| Script Return Value | Operating Mode | Description |
|---------------------|----------------------------|--|
| 0 | Normal | The Agent is running normally, and all scheduled backups are being run. |
| -1 | Ignoring Scheduled backups | <p>The agent will not run backups. When this error code is returned, Site Manager will defer all scheduled backups for the agent until the user script returns to its normal status.</p> <p>When the agent returns to normal status, any missed backups will be executed immediately as if the computer has been offline and <i>Defer Missed Backups</i> was set in the Site Manager schedule.</p> |
| Any other Value | Normal | Any other value is assumed to be an error code in the user script and the script execution is ignored. This prevents incorrectly configured user scripts from indefinitely halting backups. |
